

MossBack Predator Prey Combo Tree Assembly

1. Insert nine short (46") limbs into the top portion of trunk: insert one limb at a time into outer V-shape and **angle tip down slightly** as you insert into V-shape directly across trunk.
2. Insert nine long (60") limbs into the bottom portion of trunk.

Product needs weighting. We recommend our concrete block adapter to easily attach a concrete block to our single products.

Do not place in swimming or boating areas. Check your local game laws.
See product assembly online at MossbackFishHabitat.com.
